

# FORTRESS

# FORTRESS

**Body & Door:** Constructed of outer and inner steel plates enclosing a monolithic casting of concrete mixed with ISM's unique anti-penetration composite material. The door is reinforced with ISM's patented anti-penetration alloy grid, providing high protection against concentrated attacks with mechanical and electrical tools.

**Bolts & Locking Mechanisms:** One-way active boltwork (Three-way on bigger models). Double-action locking mechanism. Randomly located glass plate relocking protection.

**Locks:** Two locks. Mechanical or electronic combination lock and a high security key lock.

**Interior Fitting:** Adjustable removable shelves. Two anchoring holes in the floor of the safe. A hole at the back for alarm system connection - optional.
