

MAGEN

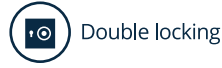

MAGEN

Body & Door: Constructed of outer and inner steel plates enclosing a monolithic casting of concrete mixed with ISM's unique anti-penetration composite material, creating maximum strength and high resistance to intrusion.

Bolts & Locking Mechanisms: One-way active boltwork. Double-action locking mechanism.

Locks: Two locks. Mechanical or electronic combination lock and a high security key lock.

Interior Fitting: Adjustable removable shelves. Two anchoring holes in the floor of the safe. A hole at the back for alarm system connection - optional.
